

PUBLIC NOTICE

Biddle Air National Guard Base

Third Five Year Review

The Air National Guard (ANG), in cooperation with the U.S. Environmental Protection Agency (EPA) and the Pennsylvania Department of Environmental Protection (PADEP), has begun the third five-year review of the remedies implemented at the Biddle Air National Guard Base (former Horsham Air Guard Station) in Horsham, Pennsylvania. The purpose of a five-year review is to ensure that the selected remedies are effectively protecting public health and the environment. The five-year review process is mandated under the Comprehensive Environmental Response, Compensation and Liability Act (CERCLA) (also known as Superfund) for sites where the selected remedial action results in contaminants remaining above levels that allow for unlimited use and unrestricted exposure.

The ANG will conduct interviews, review reports, and assess site conditions to evaluate if the remedies remain protective of human health and the environment. Public participation is encouraged and welcomed. If you are interested in participating in the interview process, please notify the contact personnel listed below by February 3, 2023. The third five-year review is scheduled for completion in September 2023 and will focus on the following site where remedial actions have been implemented:

Site Identification and Name	Managed by:
Site 1 – Privet Road Compound	Air National Guard

FOR MORE INFORMATION
